9. If you have additional comments or suggestions about how the course or the course website/Canvas was organized, please share them here:

I thought the Canvas page was very easy to navigate, but professor Asgari made everything very clear and made sure to announce any changes or updates.

15. If you have additional comments or suggestions about the assignments, reading materials, discussions, online materials, projects, rehearsals, performances, exams, or other learning components in this course, please share them here:

I think that the lectures given on zoom and the assignments make up for what is about half of the exam material, the exams themselves are so much harder than the homework. Not to say that she's doing a bad job by any means, she's an excellent professor, I just think the difficulty of the homework and complexity of the lectures can be increased, or the difficulty of the exams decreased so that they both match better.

I think the material was described in a way that made it easier to understand. Professor Asgari provided plenty of examples and even went to the extent of emailing me personally describing why a question I got wrong was incorrect. I really appreciated it.

24. Which elements of this course had the most positive impact on your engagement and/or learning?

The practice exams were basically a reflection of the real tests which definitely helped a lot.

review

The zoom meetings because If I had any questions about a topic we learned about or a question about the homework I was able to

get my questions answered

I am entering my senior year at OU and I have never had a professor be so willing to help their students out and take the time to make sure we understand the material, which is crazy. Professor Asgari did a great job with this course, and having such a great professor actually made me look forward to class and helped me feel comfortable if I needed to ask a question.

The practice tests were very helpful.

The opportunities given to help me feel more prepared for my exams

25. Which elements of this course could be improved to have a more positive impact on your engagement and/or learning?

As I said before, the only thing I think that can be improved is how well the homework and the exams match in difficulty and complexity.

presenter view seen by students

I think some improvements on the homework are necessary because the homework at times was too easy and took little time to complete, but there were also times were I felt overwhelmed by the amount of topics I needed to know for each chapter and I think by spreading out the amount we need to learn per chapter may help with the homework and learning

N/A

The mcgraw hill assignments were sometimes more busywork than studying.
